CONGRATULATIONS PBL ACHIEVERS

Cootamundra High School's *Positive Behaviour for Learning Reward Program (PBL)* is a comprehensive, integrated whole school approach to student wellbeing, behaviour and learning. The PBL program recognises the contribution of all students by acknowledging and rewarding the efforts students put towards their learning each day, along with additional recognition for students who are proactive in fostering a school culture based on our core values of 'Respect, Responsibility and Excellence'.

Congratulations are extended to the first group of students to achieve the highest level in our Positive Behaviour for Learning (PBL) reward program, having earned over 850 points throughout the year.

DEBATING

Last week our debating team visited Temora to face their team in a knock out round in the Riverina Premier's Debating Competition. The team consisting of Ella Ricketts, Yasmin Lambert, Amelia Franklin and myself were faced with the difficult topic 'That schools should be given the right to monitor the social media accounts of students'. We managed to win this debate which led to us participating in the Riverina Semi-Finals with Griffith High School.

We put forward a strong argument, as the negative team, arguing against the topic 'That we should ban all sports involving animals'. Ella, Amelia and I performed really well using the debating skills that we have learnt over the competition, which has been running all year. Our team advisor Madilyn Robinson was a vital part of our team, helping to secure our win. We were really excited to win the debate and look forward to debating in the Riverina Finals next week.

P & C NEWS

P & C Fundraising

Donation Request for Plants, Plant Cuttings and Empty Plant Pots

The P & C will be organising a garden stall to be part of this year's fundraising event 'Dog's Day Out' on Sunday, 28th October 2018.

The Dog's Day Out Fundraiser is a continuation of our 'big event' fundraising efforts which saw us last year raising close to \$15 000 at 'The Open Garden' Fundraiser.

We are asking for donations of **whole plants or plant cuttings and empty plant pots** so we can begin the planting process now for good growth prior to the event.

NB: Drop off items at the *Front Office, Science classrooms or to the Science Assistant.*

Our aim for the fundraising is to replace the old basketball courts with a covered multi-purpose court. It will be similar to the picture below however covered for weather protection.
